

ASG4X4

THE LIMITED EDITION ST200

ASG4X4 has built its name on OEM style finishes and the best quality conversions in Australia. The ST200 is no different.

For durability, the vehicle is completely resprayed, not vinyl wrapped. The chassis has been lengthened and strengthened to facilitate the 4490kg GVM upgrade. Bar work is installed as standard, but modified to suit, not just bolted on.

The standard accessories fitted are from Australia's best aftermarket manufacturers.

Limited numbers of the ST200 are available starting from \$144,000.

Complete builds are available, contact us for more details.

// Built to celebrate our 400th conversion & pay homage to the history of the LandCruiser in Australia. //

// Built to withstand whatever Australia can throw at it! //

// We've teamed up with the best in the Australian 4x4 industry to build a superior LC200 dual cab that's set to stand out from the crowd //
